

# The **TRUE** R.O. Manufacturer

## We Produce Over 95% of ALL R.O. Components in-house

**Squirt 600 displayed. Plug and play, self contained model.**  
**\*All items displayed are standard and manufactured by Village Marine Tec.**

**Lifetime Guaranteed –**  
Fiberglass pressure vessels

Corrosion resistant, powder coated, aluminum frame and mounting brackets

Corrosion resistant, machined nylon end caps and manifolds

All 316SS mounting hardware

Fresh water automatically diverted to tank

Air/Oil separator – Maintenance FREE! - No Expensive Filters to Replace

Remote Control Panel – Push button operation, LCD ppm display, audible high salinity alarm and warning lights on a corrosion resistant Inconel panel

Water Quality Monitor – LCD readout displays fresh water quality and sea water temperature, adjustable set point, high salinity alarm, hour meter on a corrosion resistant Inconel panel

Master Control Panel – LCD readout, push button operation, low pressure protection, high salinity warning, check system indicator for diagnosis and maintenance on a corrosion resistant Inconel panel

Aqua Pro, Mag Series, magnetic drive, low pressure pumps

Industrial Strength 316SS reinforced h/p hose with Titanium wetted fittings

Aqua Pro, Titan Series, Titanium head, corrosion resistant high pressure pumps. Lifetime Guaranteed Pump Head

316SS, glycerin filled, high and low pressure gauges

TRUE 316SS high pressure regulator – Eliminates risk of over pressurization

Aqua Pro, industrial grade, pleated pre-filtration

316SS Vibration isolation mounts

Corrosion resistant fresh water and brine flow meters

316SS high pressure bypass valves

Integral, closed loop cleaning system

Convenient oil drain

Custom made seawater membranes 3 year pro-rated warranty

# VILLAGE MARINE TEC.

Fresh Water from the Sea
